VTX 1000 provides Wideband Audio & Large Room Coverage

SoundStation VTX 1000 with Subwoofer & Extended Mics

Best Analog Voice Coverage

Add EX Mics and / or Subwoofer to the VTX Console

Voice coverage for rooms up to 40 ft. x 54 ft. with added Extended Mics. Flexible use for medium size rooms when used without the EX Mics.

Wideband (80 - 7000 Hz) Audio Quality capable.

Voice quality enriched by adding external Subwoofer.

VTX voice coverage permits speaking in natural levels, eliminating the need to raise voice level as speakers move about the conference room.
